Disclaimer

This mod has been thoroughly tested on several systems and in both GTA IV and EFLC. I have run this mod for hours and hours without any crashes whatsoever. Any strange behaviour ingame is most probably caused by not following the installation instructions, not having the required mods installed or incompatibility with other installed mods. Be aware that you always install mods at your own risk, and I am not responsible for any problem caused by this mod.

Release Sites

This mod is released and is only allowed to be hosted on the following sites:

- www.vertelvis.com
- www.gta4-mods.com
- www.gtainside.com

I do not upload my mods on other sites because they don't allow me to update my mods, which I regularly do since I always want to supply the community with the latest versions of my mods. In other words, this is done with you in mind!

Release

Although some would say this is merely a convert, a lot of time has gone into making this mod. I have locked the archive to protect my work. Although I take no credit for creating the base model, I do take credit for editing and converting this model to GTA IV. I hope you respect this and do not claim this or parts of this mod as your work, nor use this or parts of this mod in your own mods.

Thank you,

- Vertelvis
