

Scania R620 & Nestle Milo Trailer

Milo /'mailoo/ is a chocolate and malt powder that is mixed with hot or cold water or milk to produce a beverage popular in many parts of the world. In Malaysia and Singapore, Milo with ice added is known as "Milo Ice" (alternatively, "ping" or "peng", meaning ice in Cantonese and Hokkien respectively). Milo is also a famous beverage in Indian Muslim stalls, or fondly known as Mamak stalls in Malaysia. It is also sometimes used as an alternative to jam and spread on bread or also as an ingredient in Roti Canai, and is usually called "Roti Milo".
