

Galaxy Super Yacht Over The Sea

This mod adds the Aquarius galaxy super yacht over the sea, out of Los Santos Coast

This mod is a ymap file, and it will load automatically, if you make a correct installation.

You will need the [Map Editor & Menyoo to YMap Converter](#) to install the “custom_maps” dlc on your game.

Please download the modding tool by clicking on it's name above.

After downloaded it, open the zip file, and goto Example DLC Pack folder, and extract the custom_maps folder to mods\update\x64\dlcpacks.

With OpenIV go to mods\update\update.rpf\common\data\dlclist.xml at edit mode.

By clicking with right button from your mouse over the file, go to editi, and ad this line: <Item>dlcpacks:\custom_maps</Item>, and click in save to save, and the OpenIV Editor will close automatically.

After do that, Open the RAR file “Galaxy Super Yacht Over The Sea”, extract the YMAP file “Galaxy_Super_Yacht_Over_The_Sea.ymap to your computer.

After be extracted the file, with OpenIV, go to mods\update\x64\dlcpacks\custom_maps\dlc.rpf\x64\levels\gta5_citye\maps\custom_maps.rpf.

In edit mode, by clicking with the right button from your mouse over the empty field, go to add, and select the folder wherever you've extracted the ymap file from Galaxy Super Yacht, and so, click in Open.

This is it! Close OpenIV and run GTA V.
