

MISSION MANUAL

This is the official mission manual for “Driver: You Are The Wheelman” series.

Description of the mission series:

An Undercover officer named John Tanner has captured the informant in Miami, she then spills where one of his fiancée's contacts are which is in San Francisco, after going there he rents a Motel room that's not too chabby.

Tanner receives a "casino job" you may say, the offer came from an man called Luther, Tanner demands his cut to be 20%

The man agrees on one condition, that Tanner follows all the instructions precisely.

And that's where the chapter 2 starts at...

ESSENTIALS NEEDED

(MANDATORY) Skins & Audio download (without it – immersion of the missions would be bad) link:
<https://www.dropbox.com/s/3i5d4pea8troyzv/SD%20%26%20Mods.rar?dl=0>

Place skin modifications to your modloader folder, or replace in GTA3.img (don't forget to do a GTA:SA backup) - Audio folder (SD) place it to GTA San Andreas User Files (replace it with the SD folder, or just place folders in “SD” download folder to the correct SD folder of GTA:SA User Files). DSL folder (if there's any) also place it to GTA San Andreas – User Files. Now, when you will open your DYOM – missions will autorun. To disable autorun, simple delete autorun file from DSL (GTA San Anderas User Files / DSL), and if you don't like to play in a storyline mode, in DSL folder there will be missions 1-10 – just re-name them to DYOM1.dat - DYOM8.dat (same as intro and outro files) and place them to GTA SA User Files folder.

You would also need **DYOM#** addon, in order to play the mission correctly. It will be in the package, and you just place it to the CLEO folder (if you can't find it – here's the link:

<https://gtaforums.com/topic/927357-dyom-addon-for-dyom-81/>) , this addon will resolve bugs such as:

- Quitting the interior when character spawn point is placed too close to the doors

After playing the series, you can remove the DYOM# addon if you don't want it.
